

Alcolizer Technology Mouthpiece Recycling Program

Alcolizer Technology are committed to investigating environmentally responsible solutions related to our products and services.

In an exciting first step Alcolizer Technology have teamed up with GreenMoxie Australia Pty Ltd to provide our customers with a new mouthpiece recycling program. Don't let your mouthpieces contribute to landfill. Take advantage of our free recycling program and help do your part in protecting the environment.

HOW TO REGISTER FOR THE MOUTHPIECE RECYCLING PROGRAM

01

When you place your next mouthpiece order, speak to our sales team about joining the program.

02

Your sales representative will send you a quote for supply of the low density polyethylene (LDPE) recycling bags.

03

Send us an order and we will send out low-density polyethylene (LDPE) bags for you to collect your used mouth pieces.

HOW TO RETURN YOUR USED MOUTHPIECES

Place your used mouthpieces in the LDPE bag.

Accepted mouthpieces are:

- Alcolizer LE5/HH4/HH3 spigot mouthpiece. Part Number 430405 and 430400
- Alcolizer LE3/LE4 Saliva Trap non return valve mouthpiece. Part Number 430420
- Alcolizer LE5/HH4/HH3 Saliva Trap non return valve mouthpiece. Part Number 430435/430430

Please note: Make sure that only Alcolizer mouthpieces are placed in the bag. Mixed waste, non-mouthpiece waste and other contaminants can cause issues with the recycling process.

Return the filled bag in a cardboard box.

If you purchase your mouthpieces in box quantities, you can use the original mouthpiece shipping box to return the used mouthpieces to us.

Alcolizer Technology are committed to investigating environmentally responsible solutions related to our products and services.

Ensure the box is clearly labelled.

Ensure the box is clearly labelled with your company's name and address using the Alcolizer Technology Mouthpiece Recycling label which you can download from our website [here](#).

If returned mouthpieces are not packed in a box and not labelled according to this instruction they will not be accepted and will be returned to the sender.

▼
Alcolizer Technology will send these to our partners at GreenMoxie for recycling

WHAT DOES GREENMOXIE DO WITH THE MOUTHPIECES?

GreenMoxie receives the mouthpieces, removes contamination, crushes/granulates them and they become part of the material stream to be directly manufactured into GM-posts

What are GM Posts?

GM Posts are used for farming, fencing, windbreaks, signage, landscaping and surveying (www.greenmoxie.com.au).
