Test 1 line	COI	COC	COI	COI	COI	COI	COI
Test 2 line	AMP	MET	ISO				

**RAPID DETECTION**

Oral Detect is a rapid, single use oral fluid drugs of abuse detection device. Providing fast results, with negative results as early as 2 minutes.

**MULTIPLE DRUG GROUPS**

Oral Detect is configured with 7 drugs including Amphetamines, Benzodiazepines, Cocaine, Methamphetamines, Opiates, Oxycodone, and THC, covering all drug detection requirements to comply with current standards.

**COMPLIANT TO STANDARDS**

Oral Detect is compliant and independently verified to meet AS/NZS 4760:2019 standards for detection of drugs in oral fluid.

**EASY INTERPRETATION**

Simple, clear, visual indication for the presence/absence of illicit substances. Improves accuracy and result confirmations.

**FAST COLLECTION PROCESS**

Fast collection process reduces wait times for results.

**STREAMLINED TESTING**

The sample volume indicator streamlines the test process, reducing failed analysis & repeat testing. Saving time, money and resources.

**CONVENIENT SOLUTION**

Provides a less invasive and more convenient sampling collection for immediate and recent drug use detection.
